About Me

I am Cheerful, Hardworking, Honest and Punctual. I am always interested in learning new things and testing my limits. I am newly graduated from RU with a BS in Computer science, my goal is to work at something I'm interested in and pushes me to learn and try new things.

Work Experience

Myrkur Games - UI programmer

Worked as an Intern doing my final assignment, very good experience and excellent workplace. Worked alongside a UI designer and made functional UI according to the design given.

2023

RÍSí - Broadcasting Manager

I oversaw everything about broadcasting CS:GO at RÍSí to make sure the stream went smoothly to audiences. I made schedules for programs, managed resources like people and equipment, and checked that the content met quality standards and rules. I also handled live events, managed teams, and solved technical problems. I stayed updated on new things in broadcasting and worked with teams for better shows. My role ensured that the broadcasts were good and audiences were happy.

2021 to 2023

RÍSí - Social media Manager

I took charge of all things related to a company's social media presence. My responsibilities included creating and scheduling posts, engaging with the audience, and making sure the content followed the brand's style and rules. I designed all the post in photoshop, ran ad campaigns, and worked to grow the company's online followers.

2021 to 2023

Fjölínir Karate - Instructor

As a Karate Instructor for children and teenagers, my role involved teaching martial arts to young groups. I designed and led lessons that catered to their age and skill levels, focusing on safety and effective techniques. I structured training sessions, emphasizing discipline, respect, and physical fitness. I monitored each student's progress, provided constructive feedback, and encouraged their growth.

2018 (ongoing)

ILVA ehf. - Service Desk

General inquiries, email and telephone communication, I resolved user concerns and was coming up with solutions for problems.

2020 to 2022

Relevant Skills

- C/C++, Java, Python, Javascript
- Unreal Engine, Unity, Blender, Maya, Photoshop
- Team Communication

Volunteer Work

Fun Director at Tvíund

Institution: Tvíund computer science student committee

2022 to Present

I plan all science trips to companies and events for Tvíund and oversee that everything goes smoothly.

I also design ads, stickers and logos.

Event manager at Sys/tur/

Institution: Women's association for computer science

2023

I plan all science trips to companies and events for Sys/tur/ and oversee that everything goes smoothly.

I also design ads, stickers and logos.

Education History

Bachelor in Computer Science

Institution: Reykjavík University

Year of Graduation: 2023
